

FUNDING OPPORTUNITY

Funding Organization: AMS Healthcare
Program Name: Compassion and Artificial Intelligence Fellowship
Partner: Ontario SPOR SUPPORT Unit
Program Launch Date: February 26, 2020

KEY DATES

	Letter of intent stage	Full application stage
Info teleconference:	March 16, 2020	---
Submission deadline:	April 15, 2020	July 7, 2020
Notification date:	May 18, 2020	August 27, 2020
Funding start date:	---	September 14, 2020
Workshop:	---	October 1, 2020

PARTNERS

AMS Healthcare strives to improve the healthcare of all Canadians by innovating education and practice, championing the history of medicine and healthcare, supporting leadership development, and advancing research in the health humanities. In recent years, AMS Healthcare has provided funding for activities that address two key factors of the health care system: Compassionate care; and, artificial intelligence and digital health solutions. The [Compassionate Care in a Technological World](#) strategic priority focusses on promoting the integration of digital technology and compassionate care in the delivery of health care services, education of health professionals as well as facilitating the leadership needed to realize the promise of technology. Click [here](#) to learn more about compassionate care in a technological world.

The **Ontario SPOR SUPPORT Unit** is the catalyst for patient-oriented research in Ontario. OSSU provides supports such as expertise, infrastructure, training and resources to people conducting patient-oriented research. OSSU also funds projects that demonstrate the value of patient-oriented research and how it can leverage OSSU supports to achieve greater impacts. These awards support translational patient-oriented research that are Innovative, Measurable, Patient-oriented, Appropriate, Collaborative and Transformative – IMPACT Awards.

PROGRAM DESCRIPTION

Technology will transform healthcare in ways we are only beginning to understand and healthcare's readiness to embrace this transformation – and ability to translate technology opportunities into sustainable solutions to the most pressing issues in healthcare – will be the central challenge for practitioners, providers and policymakers alike. Expectations about compassionate care will also evolve as patients increasingly look for empathy, as well as connectedness, responsiveness, and empowerment to act together to improve health and address illness. AMS Healthcare is inviting health professionals, educators, academics and clinicians of all disciplines to seize the opportunity to explore and lead this transformation by deepening our understanding of the various aspects of compassion through the lens of technology and better ensure that technologies are enabling of healthcare's compassionate purpose.

The AMS Healthcare Fellowship in Compassion and Artificial Intelligence provides highly-qualified individuals (prepared with either a PhD or Master's degree) a unique opportunity to apply their research and analytic talents to the critical challenge of the impact of digital technology and artificial intelligence (DT/AI) on the delivery of compassionate healthcare. This innovative 12-month fellowship program is intended to be similar to the CIHR Health System Impact Fellowships or Harkness Fellowships and builds capacity in the healthcare research and academic community to take advantage of emerging DT/AI approaches and the intersection with compassionate care. To achieve this goal, AMS Healthcare's efforts are focused on early and mid-career interdisciplinary professionals, seeking experiential learning and research opportunities in compassionate care and DT/AI approaches. The focus of the fellowships will be on practice, education and/or research in health systems and related fields to improve patient care and enhance the education of students and practicing health professionals.

These awards provide fellows with the opportunity to dedicate a portion of their time (to be specified in the application) to become immersed in this topic area and benefit from mentorship by leaders, collaborating across disciplines, while also making it possible to protect a portion of time for academic research. Flexibility in the time commitment will enhance the learning experience. Fellows require a sponsoring institution that will provide support and resources to the applicant, an appropriate supervisor, as well as oversight of the financial aspects of the award. Fellows must also identify a suitably qualified mentor who will enrich this learning experience, provide advice and encourage the Fellow throughout the term of the award.

FUNDS AVAILABLE

AMS Healthcare's financial contributions for this initiative are subject to availability of funds. Should AMS Healthcare funding levels not be available or are decreased due to unforeseen circumstances, AMS Healthcare reserves the right to reduce, defer or suspend financial contributions to awards received as a result of this funding opportunity.

- The total amount available for this funding opportunity is \$600,000, enough to fund up to eight (8) one-year fellowship awards of up to \$75,000.
- In recognition of their critical role in the fellowship program, AMS Healthcare will provide a small honorarium to each mentor and/or supervisor.

ELIGIBILITY

To be eligible for this award, the applicant must be either:

- an early or mid-career academic health investigator working in a CIHR eligible institution in Ontario. CIHR defines a new/early career investigator as someone who has assumed his/her first independent academic position (e.g., faculty appointment) within the last 5 years. Mid-career is defined as 5-10 years as an independent academic.
- a regulated healthcare professional or an academic in a field related to/focussed on healthcare (i.e. health ethics, health law, computer scientist with an interest in health applications) in an Ontario health care organization, provincial government, academic setting or a provincial/national health professional organization in Ontario.
- Preference will be given to applicants who reside in Ontario and are a Canadian citizen or permanent resident.
- Intending to use the award towards a learning opportunity at an organization located in Canada.

Successful applicants must also be:

- supervised by an individual who has an academic appointment with a university-based graduate program in Ontario and who conducts research in health services and/or technology in Ontario.
- mentored by an individual (not the supervisor) who has an academic appointment with a university-based graduate program in Ontario and who conducts research in health services and/or technology.

GUIDELINES

The Fellowship award may not be combined with or supplemented by another fellowship award. Funding may be used to cover reasonable expenses related to the Fellowship (i.e. salary replacement, travel and registration expenses, etc. Questions regarding the eligibility of expenses will be: addressed at the webinar; in the FAQ document; and, can be directed to OSSU. Fellowship funding can not be used to support organizational administrative or infrastructure expenses.

REVIEW PROCESS and EVALUATION

Objectives

The AMS Healthcare Fellowship award program is expected to support the development of:

- scholars and researchers to lead in DT/AI and compassionate care by supporting experiential learning opportunities and competency development; and,
- cross discipline networks of scholars and researchers (i.e. health disciplines and technology)

Criteria for The Fellowship

To support the objectives of the fellowship award program, the following criteria will be used.

- Professional and academic achievements and potential of the applicant (mid and long term).
- Quality of the sponsoring organization's and academic institution's support including the commitment to provide release time to the applicant to complete the Fellowship.
- Quality and commitment of the mentor to guide and support the development of the Fellow during the course of this award.
- Quality, potential impact and feasibility of the applicant's project or work proposal.

Expectations

The AMS Healthcare Fellow is expected to use broad and innovative approaches to learn and develop competence/expertise in ways to embrace DT/AI in compassionate care. In addition to the usual methods of knowledge dissemination such as publications and social media, the AMS Healthcare Fellow is expected to:

- Prepare a summary report of this opportunity to AMS Healthcare;
- Share learnings and experiences in their community and at the annual AMS Healthcare Conference; and,
- Establish and participate in a community of practice regarding DT/AI and compassionate care.

HOW TO APPLY

Applications for this funding opportunity will undergo a two-stage process starting with a Letter of Intent stage (LOI Stage) and concluding with a Full Application Stage (FA Stage). Templates and application templates for this award can be found at www.ossu.ca/resources/ams-healthcare.

LOI Stage

Applicants are required to submit a complete Letter of Intent (LOI) template (Calibri, 11pt, single spaced) to OSSU, at ossu@ossu.ca, by **5:00pm, Wednesday, April 15, 2020**.

Following administrative review (for completeness and eligibility), applications will be assessed by a panel of experts in the challenges and potential impacts of digital technology and artificial intelligence on the delivery of compassionate healthcare.

The result of the LOI Stage will be determined by AMS Healthcare. All applicants will be notified of the results on or before **Monday, May 18, 2020**.

FA Stage

Successful applicants will be invited to submit a full application to the competition. Applicants must submit a complete Full Application template (Calibri, 11pt, single spaced) as well as additional documentation requested in the call to OSSU, at ossu@ossu.ca, by **5:00pm, Tuesday, July 7, 2020**.

Following administrative review (for completeness and eligibility), applications will be adjudicated by a panel of experts in the challenges and potential impacts of digital technology and artificial intelligence on the delivery of compassionate healthcare.

The result of the FA Stage will be determined by the AMS Board's Review Committee. All applicants will be notified of the results on or before **Thursday, August 27, 2020**.
