**Conduct searches to clarify a problem using Table 1 (below) to document your work, then describe what you did when searching for research evidence to clarify a problem, what you found, and when you did it**

Prompts to guide you	Your description of what you did, what you found and when you did it
<p>Search for research evidence that can be used to make comparisons that establish the magnitude of the problem you are considering, and to measure progress in addressing it.</p> <p><b>As a reminder:</b></p> <ol style="list-style-type: none"> <li>1. Search <b>PubMed</b> for administrative database studies and community surveys if your problem (and its causes) relate to:                             <ul style="list-style-type: none"> <li>• a risk factor, disease or condition</li> <li>• a program, service or drug</li> </ul> </li> <li>2. Search <b>Health Systems Evidence</b> for systematic reviews of administrative database studies and community surveys (i.e., systematic reviews addressing other questions) if your problem (and its causes) relate to:                             <ul style="list-style-type: none"> <li>• health system arrangements</li> <li>• degree of implementation of an agreed upon course of action (and if unsuccessful, try PubMed)</li> </ul> </li> </ol> <p><i>*Note: if you forget how you described your problem (and its causes), you may need to refer to task sheet 2.</i></p>	<p>Provide a description of what you did, what you found and when you did it below, and provide the details of the searches you conducted in each database to identify research evidence that can be used to make comparisons, using the tables below.</p> <p><b><u>What you did</u></b> How many searches did you conduct in each database?</p> <ul style="list-style-type: none"> <li>• PubMed                             <ul style="list-style-type: none"> <li>○ process assessment search category:</li> <li>○ outcomes assessment search category:</li> </ul> </li> <li>• Health Systems Evidence:</li> </ul> <p><b><u>What you found</u></b> How many relevant citations did you identify through your searches of each database?</p> <ul style="list-style-type: none"> <li>• PubMed                             <ul style="list-style-type: none"> <li>○ process assessment search category:</li> <li>○ outcomes assessment search category:</li> </ul> </li> <li>• Health Systems Evidence:</li> </ul> <p><b><u>When you did it</u></b> Date searches were conducted:</p>
