<b>Describe the most important action you can take to support the use of research evidence in your organization or jurisdiction</b>	
<b>Prompts to guide you</b>	<b>Your description of the most important action you can take</b>
<p>Consider the following list of potential actions that can be used to support the use of research evidence, and post the single most important action that you can take to support the use of research evidence in your organization or jurisdiction:</p> <ul style="list-style-type: none"> <li>• promote a climate that supports the use of research evidence</li> <li>• participate in research priority-setting processes</li> <li>• undertake or participate in activities that make research evidence easy to use, for example:                             <ul style="list-style-type: none"> <li>○ respond to appropriate producer-push efforts (e.g., evidence briefs and knowledge-exchange plans for highly salient research evidence)</li> <li>○ support efforts to facilitate user pull (e.g., one-stop shops, rapid-response unit and training)</li> <li>○ support mechanisms that prompt the use of research evidence in decision-making</li> <li>○ convene or participate in deliberative dialogues</li> </ul> </li> <li>• participate in evaluations of these efforts</li> </ul>	<p>Description of the single most important action that you can take to support the use of research evidence in your organization or jurisdiction:</p>
<p>Provide a brief description about why the action you posted above is the most important and/or feasible, given the other choices available to support evidence-informed decision-making.</p>	<p>Description about why the action you posted above is the most important and/or feasible, given the other choices available to support evidence-informed decision-making:</p>
