Objectives for this Session

- To appreciate the additional opportunities available in Ontario to build capacity in the conduct and use of patient-oriented research
- To evaluate the masterclass

Reminder of the Objectives for the Masterclass

- To develop the competencies needed to conduct and use patient-oriented research in Ontario
- To become familiar with the additional training and other supports available in Ontario to conduct and use patient-oriented research
- To identify ways that you, your organization and other organizations with whom you (could) work can better support the conduct and use of patient-oriented research in the future and monitor and evaluate your efforts

Reminder About the Mechanism of Action (2)

- Mechanism of action (not projects or ‘volunteer army’)
 - Cohort of champions for patient-oriented research and mentors to others becoming involved in the conduct and use of patient-oriented research
 - Broader use of the materials through a Creative Commons Licence by OSSU affiliates, Alliance for Health Policy and Systems Research, etc. (and as background to the more intense training opportunities for which this will be an introduction)
 - Please share feedback on and supplements to activities, handouts, etc.
- Additional resources
 - OSSU Working Group on Training and Capacity Building (2016). Ontario SPOR Support Unit Capacity Building Compendium. Toronto: OSSU.

Additional Opportunity to Build Capacity

- OSSU Working Group on Training and Capacity Building (2015). Ontario SPOR Support Unit Capacity Building Compendium. Toronto, Canada: OSSU.
 - If you see anything missing, please let us know

Evaluation

- Please complete the masterclass evaluation
