Presented by the Ontario Strategy for Patient-Oriented Research (SPOR) SUPPORT Unit (OSSU)

OSSU is a network of over a dozen leading health research centres across Ontario that engage with researchers, patients, and other partners to improve the health of Ontarians and the health care system by enhancing and enabling patient-oriented research.

SUPPORT UNIT

This **immersive** and **interactive** session will provide participants with practical information about how OSSU can support their research.

As a participant, you can expect:

A series of talks highlighting the patient-oriented research successes in Ottawa

Practical examples of ways in which OSSU can support patient-oriented research, followed by a panel Q&A

An outline of the services available to local researchers via the OSSU network

Engagement with experienced patient-oriented researchers and a networking session to allow for more interactive discussions between centres and participants.

The opportunity to ask questions about patient-oriented research and/or how OSSU can add value to your work

Who should attend?

- Scientists
- Investigators
- Trainees
- Research staff
